* Comment. authorized strength of the 3d Btry, which probably belongs to an unidentified AAA regiment of the 23d AAA Div in Kornenburg, is the following:

	<u>Number of Soldiers</u>	<u>Number of Vacancies</u>
Battery headquarters detail	10	4
1st Platoon	19	2
2d Platoon	20	6
3d Platoon	19	9
	<u>68</u>	<u>21</u>

Since this unit has six gun crews, i.e., six guns, the unit is believed to be a light 37-mm battery. It has been previously believed that the light (37-mm) batteries of the light AAA regiments are equipped with six guns each.

25X1 ** Comment. With the exception of the 38th Gds Mort Brig, which is mentioned for the first time, all troop units specified in Gds Senior Lieutenant N.S. Stokos's military history agree with records available. The assignment of the 328th Gds How Arty Regt to the 59th Gds Rifle Div, made at a time when two artillery regiments were organically assigned to each rifle division, indicates that the 127th Gds Arty Regt, of the 59th Gds Rifle Div, is equipped with guns. The appointment of Gds Senior Lieutenant Stokos to the position of gas officer of the 328th Gds How Arty Regt of the 59th Gds Rifle Div by order of the commanding general of the Odessa MD indicates that this division is stationed in that military district. This is supported by the fact that, at the end of the war, the 59th Gds Rifle Div belonged to the Forty-Sixth Army which is still carried in the Odessa MD.
